## **Kinesio taping**

Kinesio tape is an elastic tape that is an effective tool for reducing ailments of the skeletal muscle system.

Taping aids in the recovery of an area damaged by overuse or trauma. The tape helps reduce swelling and reduces pain.

We also perform kinesio taping with the patient's own tape. The service is for a fee.

## Appointments can be booked:

- ITK patient portal iPatsient
- by phone 666 1900 Mon-Fri 7:15-18:00
- at the reception
