Women's Counselling

During the [gynaecologist appointment](#), we offer consultations on a variety of gynaecological problems. We consult young patients up to 26 years of age at our [youth office](#). Patients can come for an appointment at the breast health office for a breast check-up or when they have problems with their breasts. A midwife appointment can be scheduled when the patient needs a [cervical cancer screening](#), [breast cancer screening](#) or a HPV (human papilloma virus) vaccination.

You do not need a referral to book an appointment with a gynaecologist or a midwife (excl. special appointments).

Appointments can be booked by calling customer service on [666 1900](#), at the reception on site, through [iPatient](#) or through [national digital registry Patient Portal](#).

Women's Counselling and Youth Offices are located in the Tõnismäe unit, breast health offices in the Magdaleena unit and the Office of Gynaecologic Oncology in the Ravi Street unit.
