## Ophthalmologist's appointment

**An eye doctor, or an ophthalmologist, is a doctor who diagnoses, treats and monitors eye diseases and vision disorders.**

Generally, no referral is needed to visit an eye doctor. Our eye clinic is a clinic that performs surgeries, and our ophthalmologists are specialised in fundus diseases, vitreoretinal surgery, corneal diseases, cataract surgery, and uveitis. Children are welcome to visit paediatric ophthalmologists. **A referral from a family doctor or specialist doctor is required for an appointment with these experts! A referral is necessary to get you to the right expert.**

If you need an appointment without a referral, visit the Health Portal at [www.terviseportaal.ee](http://www.terviseportaal.ee) to find appointment times.

### **Book an appointment:**

- on the Health Portal at [www.terviseportaal.ee](http://www.terviseportaal.ee)
- by phone [666 1900](tel:6661900) **Mon–Fri 7.30 AM–6.00 PM**
- at the clinic information desk
