- Received 513,860 patients, including 356 516 visits to specialist doctors and 157 344 visits to nurses and midwives.
- Performed 13 692 inpatient surgeries and 13 073 day outpatient surgeries.

Vision and mission

The hospital's vision

We want to be the hospital in Tallinn that provides top-level healthcare services and is the go-to choice for patients, partners and employees.

Mission

We are a people-centric, innovative hospital that offers the best treatment to each patient and has a positive impact on the health of the Estonian population. Our activities contribute to a sense of social security in the society.

Our mission is supported by:

- the professionalism of our staff;
- modern evidence-based health services;
- well-established traditions and cooperation networks; and
- an openness and willingness to initiate change.

Core values:

- patients' needs are always a priority
- integrity, empathy and cooperation ensure the sense of security that people and the society expect from a hospital
- we want our employees to feel proud of their hospital

Accreditations of East Tallinn Central Hospital

East Tallinn Central Hospital is accredited as an integrated center for oncology and palliative care (ESMO Designated Center of Integrated Oncology and Palliative Care) for the years 2022–2024.

ESMO DESIGNATED CENTRES

of integrated oncology and palliative care services

From 2021, we have full membership status in the [Organisation of European Cancer Institutes \(OECI\)](#). This network includes more than 100 cancer centres and institutes all over Europe, from EU as well as other countries. In addition, our Eye Clinic has been the Baltic Centre of Ocular Oncology since 1993, covering the treatment of intraocular and orbital tumours in patients from Latvia, Lithuania and Estonia.

Organisation of European
Cancer Institutes – EEIC

The hospital's Centre of Spinal Surgery is an internationally accredited [AO Spine Centre](#).

Since summer 2016, East Tallinn Central Hospital Women's Clinic has held valid accreditation by the [European Board and College of Obstetrics and Gynaecology](#), acknowledging our Women's Clinic as an accredited training centre in obstetrics and gynaecology in Europe. Our hospital has been awarded the title of baby-friendly hospital. We were the first to be granted this title by [UNICEF](#) in 2008 and again in 2019 after repeat evaluation.

In 2011, [the European Board of Ophthalmology](#) granted our Eye Clinic accreditation as an international eye clinic. Since 2016, East Tallinn Central Hospital Eye Clinic has also been part of the [ERN-EYE \(European Reference Network\)](#).
